We are committed to enhancing patient care by utilizing evidence-based health guidelines from American Academy of Family Practice, National Committee of Quality Assurance, American Academy of Pediatrics and the Centers for Disease Control and Prevention.

## What is a Patient-Centered Medical Home?

- A team of caregivers focused on providing the best possible care to you.
- Care that involves you in the decision making process to determine your healthcare needs.

Achieved with the support of self management tools and

“care that has been tested and proven.”

## What will a Patient-Centered Medical Home do for You?

- Provide improved, more personalized care, because your care team knows you.
- Guide you throughout the complex healthcare system to help you get the care you need.
- Your healthcare team will work with you to live a healthier life.

## Our Role

- Work together through shared decision making.
- Act as your care guide through our complex healthcare system.
- Provide educational resources to empower you as a patient.
- Offer whole person care including access to behavioral healthcare.

**RIGHT CARE. RIGHT TIME. RIGHT PLACE.**

## Your Role

## You Are the Center of Your Team

- List concerns, thoughts and emotions that impact care.
- Medication lists are important.
- Personal goals.
- Follow through on annual physicals and openly share feelings.

## Coordinated & Integrated

### Why do You Need a Care Team?

- Care coordination
- Fewer emergency room visits
- Fewer hospital admissions and readmissions
- Shorter hospital stays

## Care Options

### Primary Care:

Appointments available Monday—Friday between 7:30 a.m. and 5:30 p.m.

### Provider On Call
